

3B SimPy for Discrete Event Simulation Part 1

Trainer : Dan Chalk

<i>From</i>	<i>To</i>	<i>Format</i>	<i>Name of Activity</i>	<i>Link (if applicable)</i>
1330	1410	Live Lecture	Building a Simple SimPy Model, Linear and Branching Paths, Results	
1410	1510	Individual Exercise (Spyder)	Exercise 1 – Building your first Discrete Event Simulation	
1510	1515	Comfort Break		
1515	1520	Group Discussion	Exercise 1 Solution	
1520	1550	Live Lecture	Multiple Generators, Multiple Runs, Warm Up and Containers	
1550	1630	Individual Exercise (Spyder)	Exercise 2 – Extending your first DES model
